

Health Professions Council
COUNCIL MEMBERS' PERFORMANCE AND
DEVELOPMENT REVIEW
6 July 2006

Executive Summary and Recommendations

Introduction

The annual review of Council Members' Performance and Development Review has come to an end. The exercise has been a very useful source of feedback and has helped identify members' training needs. All but one member of Council has undertaken the annual review. The member concerned felt that he should not be required to undertake the Review, even though Council has provided for this in Council and committee Standing Orders and the Members' Code of Conduct.

In the light of this Council may wish to re-consider its approval of Standing Orders and the Code of Conduct in relation to the principle of Performance and Development Review. In this case an item could be included on the agenda for the September Council meeting (subject to the approval of the agenda by the new President).

If Council feels that a review of Standing Orders and Code of Conduct regarding the principle of Members' Performance Review is not required it will need to decide whether it wishes to proceed to a discussion of this specific case. In this case the Council should instruct the Registrar to call a special meeting of Council.

Decision

The Council is asked to consider the above and make a decision:

- (i) (a) – whether it wishes to review Council and committee Standing Orders and the Members' Code of Conduct in relation to Performance and Development Review
- (ii) (b) – whether it wishes to include an item regarding the above on the agenda of the September Council meeting

or

- (iii) (c) – whether it wishes to instruct the Registrar to call a special meeting to review this specific case.
