

**Health Professions Council
Continuing Professional Development PLG 6th February 2006**

Meeting with professional bodies on February 3rd, and example profiles project

Executive Summary and Recommendations

Introduction

The PLG agreed at its first meeting in September 2005 to draft guidance information for registrants, and to engage with professional bodies in the compilation of example CPD profiles.

At the time of putting together this paper, a meeting is planned with the PLG members and representatives from professional bodies, to discuss and move forward on this project. This meeting is planned for February 3rd, 2006. It is expected that ideas will be raised at this meeting, and feedback will be given, that the PLG will wish to discuss.

Decision

The PLG is asked to discuss the feedback from the meeting on February 3rd, particularly regarding:

- the draft documents and any particular feedback on their helpfulness, clarity, or whether any further information is required;
- the project to produce example CPD profiles for each profession, for publication online; and
- the timescale for moving these projects to completion in April 2006.
